SUMMARY

Automation specialist focused on solving real business problems with low-code no-code platforms like n8n and openai-agentsSDK. Expert in prompt engineering and using LLMs to enhance productivity across teams. My skills not only lies in building the systems but to understand and optimize them.

PROFESSIONAL SKILLS

Team Collaboration
Adaptability

Problem Solving
Presentation skills

TECHNICAL SKILLS

n8n, Make.com, VAPI, Lovable, RAG agents, openai-agentsSDK, Fastapi, Prompt Engineering, CRM's, Javascript, Python, SQL. Docker.

PROJECTS

Lead Generation System

Aug 2025

Developed an automated lead generation and outreach system that scrapes prospects from multiple platforms, manages cold email campaigns from dedicated accounts, tracks follow-ups, and monitors lead status through an Airtable-powered dashboard

Skill Builder Agent:

Sep 2025

A Skill Builder Agent that generates personalized weekly learning plans for any skill, with curated videos and docs per week. Includes progress analytics with charts and automated email summaries. Built using modern stack with AI integration.

EXPERIENCE

Barq Digital: Worked as an Autmation developer, building workflows and agents using modern AI tools.

Developed content automation systems, RAG systems, voice AI agents and Dashboards using lovable. Built. Focused on solving real-world business problem solving through custom AI workflows and interactive interfaces, understand how business can leverage AI to increase productivity.

EDUCATION

Pre Engineering

Aug 2020 - May 2022

Govt CollegeFormen.
Grade A-1

Bachelor of Science in Computer Science

Oct 2022 - Present

DawoodUniversityOFEngineering andTechnology. Gained hands-on experience with Object-Oriented Programming, Data Structures, and Algorithms through academic projects and problem-solving.

ADDITIONAL INFORMATION

Languages:English,Urdu.

Certifications & Awards: Governor IT initiative for Cloud applied Agentic AI.
